

Inflatable PFDs

Mustang Inflatable PFDs are designed in Mossy Oak® Shadow Grass® camouflage print to keep you well-hidden in any marsh or wetland setting and are the ideal solution for warmer weather hunters and anglers. They are lightweight and flexible for total comfort and compact in design allowing maximum air circulation for cooling. Mustang Inflatable PFDs are also versatile. They can be worn over a t-shirt on warm days and just as easily over your existing waterproof jacket in the cold or rain giving you one PFD for all conditions.

MD3081 CM • Deluxe Inflatable PFD - Manual

- Lightweight, comfortable and compact design
- Neoprene comfort collar for extra neck comfort
- PFD inflates by pulling activation cord
- Easy to use and re-arm

Hunting & Fishing Gear

MUSTANG SURVIVAL

Mossy Oak® Shadow Grass®

Made for hunters and anglers, Mustang Survival Hunting and Fishing Gear is designed with Mossy Oak® Shadow Grass® camouflage print to blend in with any marsh or wetland setting to keep you well-hidden. Most importantly, Mustang Survival Hunting and Fishing Gear is comfortable, will keep you warm and dry, keep you afloat, and protect you against the onset of hypothermia.

MC1504 CM • Classic Coat

Exceptionally comfortable and perfectly camouflaged, the Classic Coat is hip-length to provide more weather protection and warmth for those cold autumn days when you're on the lake or lying behind a blind.

- Made with Mustang AirSoft™ Foam for a soft and comfortable fit
- Full-length coat for maximum warmth
- Designed for comfort & mobility
- Front belt for a custom fit
- Large waist pockets for storage
- Front storm flap for weather protection
- Neoprene cuffs

SIZE S-XXXL
APPROVAL USCG TYPE III

MJ6214 CM • Classic Jacket

The Classic Jacket is a traditional bomber length making it incredibly versatile and mobile – something you'll appreciate on those days when ease of movement is the primary concern.

- Made with Mustang AirSoft™ Foam for a soft and comfortable fit
- Bomber Jacket length for total mobility
- Warm & Comfortable
- Fleece-lined front pockets
- Front storm flap for weather protection
- Neoprene cuffs

SIZE S-XXXL
APPROVAL USCG TYPE III

MA7136 CM • Classic Hood

- Attaches to the MJ6214 CM or the MC1504 CM

SIZE ONE SIZE

MP4212 CM • Classic Pant

Made for use with the Classic Coat or Jacket, the Classic Pant can be worn in cold weather for extra warmth and removed when the temperature increases giving you the versatility you need on those days when the weather just won't make up its mind.

- Made with Mustang AirSoft™ Foam for a soft and comfortable fit
- Excellent versatility, worn in cold weather for extra warmth and comfort
- Adjustable elasticized suspenders
- Leg zippers for easy entry

SIZE S-XXL

MS2075 CM • Classic Suit

If a cold and windy November day is what you dream about, then this is your suit. Made for constant-wear, the Classic Suit is comfortable, designed with large cargo pockets for storage, and will keep you warm in some of the worst weather you'll ever encounter.

- Made with Mustang AirSoft™ Foam for a soft and comfortable fit
- Designed for colder weather hunting and fishing trips
- Insulated hood
- Leg zippers for easy entry
- Waist & shoulder pockets for storage
- Front storm flap and Velcro® closures
- Inflatable head support for added flotation
- Neoprene cuffs

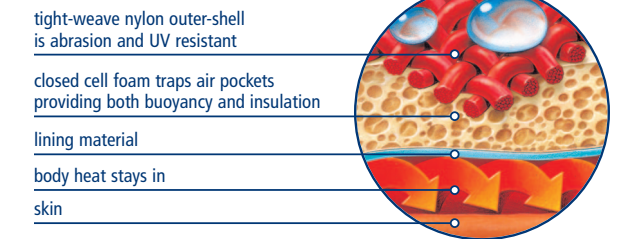

SIZE S-XXXL
APPROVAL USCG TYPE V

Protection Inside and Out

Mustang Survival apparel is made with high quality materials and technology to provide protection from the elements and the ultimate in comfort, hypothermia protection, and flotation performance.

AirSoft™ closed cell foam provides insulation and flotation protection by trapping air pockets.

Mustang Survival's outer shell fabric is made of extra-durable nylon that meets and exceeds Coast Guard tests for weathering and ultra violet degradation.

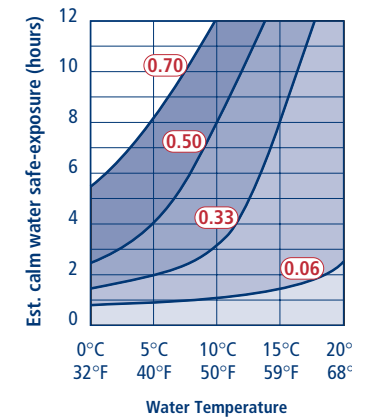

Surviving Hypothermia

In just 20 minutes, hypothermia can deprive you of all mental and physical capacities, leading to unconsciousness and even death.

At Mustang Survival, our research scientists are dedicated to protecting people from hypothermia. The length of time a person can survive in cold water primarily depends on both the water's temperature and the thermal insulation of the victim's protective clothing. The scientific measure of such insulation is referred to as a Clo value. Simply put, the higher the Clo, the greater the insulation and the longer you can survive in cold water.

To provide the maximum Clo possible, Mustang products are made with our unique AirSoft™ foam - it not only provides maximum insulation against the cold, it also keeps you afloat to protect you from drowning.

The graph at right indicates random samples of Clo values and the corresponding estimation of survival time in calm water (assuming a thin person with a 5.5°F [3°C] drop in core temperature).

STYLE NUMBER	CLO VALUE
Nude	.060
Traditional Fishing Attire	.100
MC1504 CM Classic Coat	.150
MJ6214 CM & MP4212 CM Pant	.381
MC1504 CM & MP4212 CM Pant	.409
MS2075 CM Classic Outdoor Suit	.420
